HC

DETAILED ACTION

1. Claims 1-27 are pending in the present application.

Allowable Subject Matter

2. Claims 1-27 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed February 7, 2005 are convincing. Specifically, regarding independent claim 1, the prior art of record fails to teach the following limitation: "storing object attribute data in the database according to the semantic information and the metadata". Regarding independent claim 10, the prior art of record fails to teach the following limitation: "retrieving heuristic information, wherein the heuristic information and the metadata are cached within an object model; modifying the object attribute data within the object model on behalf of a client in accordance with the heuristic information if the object attribute data has characteristics that conflict with the database limitations". The limitations of independent claims 11 and 20 parallel that of claim 1, and the limitations of independent claim 27 parallels claim 10; therefore they are allowed for similar reasons as stated supra.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
